

Schoolfusion/Edulink Student Login

Students **DO NOT** need to register with schoolfusion, their accounts have already been created. The first time students login they will use the following:

Username: student number (6 digits)

Password: birthdate (8 digits)

Students will be asked to change their password after their initial login.

****It's important for them to remember their password as it will also become their password for Edulink.**

The screenshot shows the website for Prince William County Public Schools, specifically for Brentsville District High School's Cambridge Programme. The header includes the school name and a crest. A navigation bar contains links for Home, Calendar, Class Pages, Staff Directory, Student Activities, and PWCS HOME. A left sidebar lists various site sections like About BDHS, Administration, Cambridge Programme, Library, Edulink InTouch, Athletics, For Students & Parents, For Staff, New User Registration, and FAQs. Below the sidebar is a 'User Login' section with fields for Username and Password, a 'Login' button, and a calendar for September 2009. A large central announcement for parents is titled 'Announcement for Parents:' and details a new centralized login process for SchoolFusion and Edulink Intouch. Two red arrows point from text boxes to the login fields: one points to the Username field with the text 'Enter your student number here', and the other points to the Password field with the text 'Enter your birthdate (mmddyyyy)'. The announcement text includes: 'This year a new process has been implemented to centralize the PWCS schools' online system allowing parents to have one user account for their school Web site log in and the Edulink Intouch log in. To obtain your user account follow the steps below: • All parents must obtain an authorization letter in person at your child's school in order to log in to your school's Web site or to log in to Edulink Intouch. • This year, there is a new process to log into Edulink Intouch to view student grades or emergency information. Follow the steps below: • Beginning September 3rd go to your child's school to receive a printed authorization letter which will have a student "passcode" that you will need when you register on your school's Web site. Bring a photo ID. If you have children in more than one school, please go to each school in person. • After receiving the letter, go to one of your children's school Web sites and register by clicking on the left button "New User Registration." You only have to register once at one school Web site, even if you have children at more than one school. • Parents of students in PWCS schools and staff members do not have to register as a "New User" on SchoolFusion. They will log in to the Web site as usual, click on "My Family" and add the student passcodes on that page. • Fill out the authorization letter and enter your student's ID number and "passcode" for each of your children in PWCS schools. If you have children in more than one school, you can enter all children's passcodes from one Web site. Also, you can add more children at a later time by clicking on your "My family" icon after logging into a school Web site. • You can use the same log in user name and password for all Web sites where your children attend school. • You can use the same school Web site log in and password to log into Edulink Intouch as well. After you have logged in to the Web site, you will be able to log in to Edulink Intouch (also known as Edulink) and view your student's information. However please wait 48 hours before logging into the Edulink Intouch system because there is a time delay to transfer login information to the Edulink Intouch system. Your Edulink Intouch user name and password will be the same as your school Web site log in.'

Students will need to click the link for Edulink Intouch in the left menu in order to be directed to the Edulink Site.
